

**Development of the National System for Greenhouse Gas Inventory and Reporting on Policies, Measures and Projections**

Project number	4.3-23/EEZ/INP-002/002
Project title	Development of the National System for Greenhouse Gas Inventory and Reporting on Policies, Measures and Projections
Project implementer	Ministry of Environmental Protection and Regional Development of the Republic of Latvia
Total budget	EUR 1 981 871
Financial contribution	EEA funding in the amount of 100%
Agreement signed	01.07.2014.
Place of implementation	Latvia, duration 37 months, planned end date 30.04.2017.
Project partners in Latvia	State limited Liability Company Latvian Environment, Geology and Meteorology Centre Ministry of Agriculture of the Republic of Latvia  Information about partners is available <a href="http://www.meteo.lv">www.meteo.lv</a> <a href="http://www.zm.gov.lv">www.zm.gov.lv</a>
Project partner in Norway	Norwegian Environment Agency  Information about partner is available <a href="http://www.miljodirektoratet.no">www.miljodirektoratet.no</a>
Target groups	The main target groups of the project are state institutional officials and sectoral experts involved in inventory and reporting
Activities/ results	<u>Improvement of GHG inventory system in Latvia</u>  Planned results within activity 1) Developed an integrated database for climate change and air quality data aggregation and preparation of reports to different international institutions. 2) Implemented studies undertaken for inventory improvement.  <u>Increasing capacity of the Latvian inventory experts</u>  Planned results within activity 1) Conferences, training seminars and other experience-sharing events carried out to increase the capacity of Latvian inventory experts.  <u>Improved quality of ex-ante and ex-post evaluation of climate change policy measures</u>  Planned results within activity 1) Developed model system for climate change mitigation policy evaluation, including guidelines for cost

	<p>assessment of different policy measures and ex-ante and ex-post policy assessment.</p> <ol style="list-style-type: none"> <li>2) Carried-out educational events for sectoral experts from institutions involved in the national system for policies, measures and projections.</li> <li>3) Unified data tools for annual reporting on actual and projected GHG emissions.</li> </ol> <p><u>Publicity</u></p> <p>Planned results within activity</p> <ol style="list-style-type: none"> <li>1) Project Conferences.</li> <li>2) Information in the media and in project partners' homepages.</li> <li>3) Representation materials, project results.</li> </ol>
